DENTAL-DESERT COUNTIES

- A complete single dental implant averages **\$4,683** in Connecticut, \$176 above the \$4,507 national mean of our 51 markets — ranking Connecticut **36 of 51** on the restorative cost index (1 = least expensive).
- **42.9%** of Connecticut dentists accept Medicaid patients (rank 24 of 51), and the state provides **extensive** adult dental coverage.
- **No Connecticut county meets the dental-desert definition**, which requires above-median prices; Connecticut sits below that line. Access pressure is nonetheless broad: **8 of Connecticut's 9 counties** (89%) carry at least one active Dental HPSA designation.
- Nationally, 288 of 3,144 counties qualify as dental deserts, and 2,601 carry at least one active Dental HPSA designation.

Procedure prices: Connecticut vs the national mean

Every row is labelled with its data basis. **OBSERVED** = measured per-state prices. **ESTIMATED** = no per-state source; the national figure scaled by the restorative cost index. **NATIONAL** = no per-state source at all, so no geographic variation is invented.

Procedure	Connecticut range	Connecticut avg.	U.S. mean (51 markets)	Basis
Exam, cleaning & X-rays	\$50–\$365	\$210	\$203	ESTIMATED
Composite filling (1 tooth)	\$95–\$470	\$235	\$226	ESTIMATED
Deep cleaning (SRP, per quadrant)	\$175–\$365	\$250	\$242	ESTIMATED
Tooth extraction	\$80–\$830	\$310	\$300	ESTIMATED
Root canal	\$520–\$1,560	\$1,145	\$1,100	ESTIMATED
All-on-4 (per arch)	\$12,105–\$28,600	\$15,785	\$15,179	ESTIMATED
Professional teeth whitening	\$300–\$1,000	\$650	\$650	NATIONAL
Dental crown	\$1,170–\$2,605	\$1,529	\$1,369	OBSERVED
Porcelain veneer (per tooth)	\$420–\$2,420	\$1,474	\$1,759	OBSERVED
Braces (traditional, full case)	\$2,335–\$9,345	\$5,927	\$6,352	OBSERVED
Single dental implant (complete)	\$3,905–\$5,955	\$4,683	\$4,507	OBSERVED
Full set of dentures (both arches)	\$1,630–\$3,915	\$2,111	\$1,953	OBSERVED

What insurance actually pays in Connecticut

Applied to Connecticut averages: a typical full coverage plan structure (preventive ~100%, basic ~80%, major ~50%) against a \$1,500 annual maximum. This is an illustration of a common plan design, not a quote, and it is the subtraction carrier pages do not publish.

Procedure	Connecticut avg.	Tier	Plan pays	You still pay
Composite filling (1 tooth)	\$235	basic	\$188	\$47
Root canal	\$1,145	major	\$573	\$572
Dental crown	\$1,529	major	\$765	\$764
Full set of dentures (both arches)	\$2,111	major	\$1,056	\$1,055
Braces (traditional, full case)	\$5,927	ortho	\$1,500 (cap)	\$4,427
Single dental implant (complete)	\$4,683	excluded	nothing	\$4,683

The annual maximum is consumed by the whole plan year, not reset per procedure. Orthodontics and implants are the two lines where the gap is widest: the first exhausts the cap on its own, the second is usually excluded outright.

Methodology & sources

Single implant (complete) — our own observed 51-market series, DOI 10.5281/zenodo.20531728 (CC BY 4.0).

Crown, porcelain veneer, braces, dentures — Average Procedural Cost Study by ASQ360° Market Research for Synchrony's CareCredit. Cited wherever displayed, not redistributed in our open dataset.

All other procedures — national figures scaled by the restorative cost index, labelled *estimated*. Cosmetic rows carry no state variation.

Medicaid acceptance and adult benefit level — DOI 10.5281/zenodo.20666358.

Shortage and dental-desert counts — HRSA Dental HPSA snapshot 2026-07-30, crossed with county median income and state price level; DOI 10.5281/zenodo.21707529.

This is pricing and market research, **not medical advice** and not an insurance quote. Figures are market averages for budgeting and comparison — your quote depends on your case, provider and plan document.
