Data edition 2026.1 · HRSA snapshot 2026-07-30

Nebraska at a glance

\$4,158 SINGLE IMPLANT, AVG.	12/51 RESTORATIVE COST RANK	54.9% DENTISTS TAKING MEDICAID	0 DENTAL-DESERT COUNTIES
--	---------------------------------------	--	------------------------------------

- A complete single dental implant averages **\$4,158** in Nebraska, \$349 below the \$4,507 national mean of our 51 markets — ranking Nebraska **12 of 51** on the restorative cost index (1 = least expensive).
- **54.9%** of Nebraska dentists accept Medicaid patients (rank 14 of 51), and the state provides **extensive** adult dental coverage.
- **No Nebraska county meets the dental-desert definition**, which requires above-median prices; Nebraska sits below that line. Access pressure is nonetheless broad: **55 of Nebraska's 93 counties** (59%) carry at least one active Dental HPSA designation.
- Nationally, 288 of 3,144 counties qualify as dental deserts, and 2,601 carry at least one active Dental HPSA designation.

Procedure prices: Nebraska vs the national mean

Every row is labelled with its data basis. **OBSERVED** = measured per-state prices. **ESTIMATED** = no per-state source; the national figure scaled by the restorative cost index. **NATIONAL** = no per-state source at all, so no geographic variation is invented.

Procedure	Nebraska range	Nebraska avg.	U.S. mean (51 markets)	Basis
Exam, cleaning & X-rays	\$45–\$320	\$185	\$203	ESTIMATED
Composite filling (1 tooth)	\$85–\$415	\$210	\$226	ESTIMATED
Deep cleaning (SRP, per quadrant)	\$155–\$325	\$225	\$242	ESTIMATED
Tooth extraction	\$70–\$735	\$275	\$300	ESTIMATED
Root canal	\$460–\$1,380	\$1,010	\$1,100	ESTIMATED
All-on-4 (per arch)	\$10,710–\$25,300	\$13,960	\$15,179	ESTIMATED
Professional teeth whitening	\$300–\$1,000	\$650	\$650	NATIONAL
Dental crown	\$920–\$2,050	\$1,205	\$1,369	OBSERVED
Porcelain veneer (per tooth)	\$475–\$2,745	\$1,675	\$1,759	OBSERVED
Braces (traditional, full case)	\$2,255–\$9,025	\$5,725	\$6,352	OBSERVED
Single dental implant (complete)	\$3,470–\$5,290	\$4,158	\$4,507	OBSERVED
Full set of dentures (both arches)	\$1,375–\$3,295	\$1,778	\$1,953	OBSERVED

What insurance actually pays in Nebraska

Applied to Nebraska averages: a typical full coverage plan structure (preventive ~100%, basic ~80%, major ~50%) against a \$1,500 annual maximum. This is an illustration of a common plan design, not a quote, and it is the subtraction carrier pages do not publish.

Procedure	Nebraska avg.	Tier	Plan pays	You still pay
Composite filling (1 tooth)	\$210	basic	\$168	\$42
Root canal	\$1,010	major	\$505	\$505
Dental crown	\$1,205	major	\$603	\$602
Full set of dentures (both arches)	\$1,778	major	\$889	\$889
Braces (traditional, full case)	\$5,725	ortho	\$1,500 (cap)	\$4,225
Single dental implant (complete)	\$4,158	excluded	nothing	\$4,158

The annual maximum is consumed by the whole plan year, not reset per procedure. Orthodontics and implants are the two lines where the gap is widest: the first exhausts the cap on its own, the second is usually excluded outright.

Methodology & sources

Single implant (complete) — our own observed 51-market series, DOI 10.5281/zenodo.20531728 (CC BY 4.0).

Crown, porcelain veneer, braces, dentures — Average Procedural Cost Study by ASQ360° Market Research for Synchrony's CareCredit. Cited wherever displayed, not redistributed in our open dataset.

All other procedures — national figures scaled by the restorative cost index, labelled *estimated*. Cosmetic rows carry no state variation.

Medicaid acceptance and adult benefit level — DOI 10.5281/zenodo.20666358.

Shortage and dental-desert counts — HRSA Dental HPSA snapshot 2026-07-30, crossed with county median income and state price level; DOI 10.5281/zenodo.21707529.

This is pricing and market research, **not medical advice** and not an insurance quote. Figures are market averages for budgeting and comparison — your quote depends on your case, provider and plan document.
