Data edition 2026.1 · HRSA snapshot 2026-07-30

Nevada at a glance

\$4,830 SINGLE IMPLANT, AVG.	40/51 RESTORATIVE COST RANK	21.9% DENTISTS TAKING MEDICAID	3 DENTAL-DESERT COUNTIES
--	---------------------------------------	--	------------------------------------

- A complete single dental implant averages **\$4,830** in Nevada, \$323 above the \$4,507 national mean of our 51 markets — ranking Nevada **40 of 51** on the restorative cost index (1 = least expensive).
- **21.9%** of Nevada dentists accept Medicaid patients (rank 51 of 51), and the state provides **emergency-only** adult dental coverage.
- **3 of Nevada's 17 counties** (18%) meet the dental-desert definition — an active shortage designation, below-median county income and above-median prices at once. 17 counties carry at least one active Dental HPSA designation.
- Nationally, 288 of 3,144 counties qualify as dental deserts, and 2,601 carry at least one active Dental HPSA designation.

Procedure prices: Nevada vs the national mean

Every row is labelled with its data basis. **OBSERVED** = measured per-state prices. **ESTIMATED** = no per-state source; the national figure scaled by the restorative cost index. **NATIONAL** = no per-state source at all, so no geographic variation is invented.

Procedure	Nevada range	Nevada avg.	U.S. mean (51 markets)	Basis
Exam, cleaning & X-rays	\$55–\$375	\$215	\$203	ESTIMATED
Composite filling (1 tooth)	\$95–\$480	\$240	\$226	ESTIMATED
Deep cleaning (SRP, per quadrant)	\$180–\$375	\$260	\$242	ESTIMATED
Tooth extraction	\$80–\$855	\$320	\$300	ESTIMATED
Root canal	\$535–\$1,605	\$1,175	\$1,100	ESTIMATED
All-on-4 (per arch)	\$12,455–\$29,425	\$16,240	\$15,179	ESTIMATED
Professional teeth whitening	\$300–\$1,000	\$650	\$650	NATIONAL
Dental crown	\$1,080–\$2,410	\$1,417	\$1,369	OBSERVED
Porcelain veneer (per tooth)	\$500–\$2,890	\$1,762	\$1,759	OBSERVED
Braces (traditional, full case)	\$3,290–\$13,165	\$8,350	\$6,352	OBSERVED
Single dental implant (complete)	\$4,030–\$6,145	\$4,830	\$4,507	OBSERVED
Full set of dentures (both arches)	\$1,525–\$3,655	\$1,972	\$1,953	OBSERVED

What insurance actually pays in Nevada

Applied to Nevada averages: a typical full coverage plan structure (preventive ~100%, basic ~80%, major ~50%) against a \$1,500 annual maximum. This is an illustration of a common plan design, not a quote, and it is the subtraction carrier pages do not publish.

Procedure	Nevada avg.	Tier	Plan pays	You still pay
Composite filling (1 tooth)	\$240	basic	\$192	\$48
Root canal	\$1,175	major	\$588	\$587
Dental crown	\$1,417	major	\$709	\$708
Full set of dentures (both arches)	\$1,972	major	\$986	\$986
Braces (traditional, full case)	\$8,350	ortho	\$1,500 (cap)	\$6,850
Single dental implant (complete)	\$4,830	excluded	nothing	\$4,830

The annual maximum is consumed by the whole plan year, not reset per procedure. Orthodontics and implants are the two lines where the gap is widest: the first exhausts the cap on its own, the second is usually excluded outright.

Methodology & sources

Single implant (complete) — our own observed 51-market series, DOI 10.5281/zenodo.20531728 (CC BY 4.0).

Crown, porcelain veneer, braces, dentures — Average Procedural Cost Study by ASQ360° Market Research for Synchrony's CareCredit. Cited wherever displayed, not redistributed in our open dataset.

All other procedures — national figures scaled by the restorative cost index, labelled *estimated*. Cosmetic rows carry no state variation.

Medicaid acceptance and adult benefit level — DOI 10.5281/zenodo.20666358.

Shortage and dental-desert counts — HRSA Dental HPSA snapshot 2026-07-30, crossed with county median income and state price level; DOI 10.5281/zenodo.21707529.

This is pricing and market research, **not medical advice** and not an insurance quote. Figures are market averages for budgeting and comparison — your quote depends on your case, provider and plan document.
