DENTAL-DESERT COUNTIES

- A complete single dental implant averages **\$4,998** in New Hampshire, \$491 above the \$4,507 national mean of our 51 markets — ranking New Hampshire **44 of 51** on the restorative cost index (1 = least expensive).
- **37.0%** of New Hampshire dentists accept Medicaid patients (rank 29 of 51), and the state provides **extensive** adult dental coverage.
- **1 of New Hampshire's 10 counties** (10%) meet the dental-desert definition — an active shortage designation, below-median county income and above-median prices at once. 7 counties carry at least one active Dental HPSA designation.
- Nationally, 288 of 3,144 counties qualify as dental deserts, and 2,601 carry at least one active Dental HPSA designation.

Procedure prices: New Hampshire vs the national mean

Every row is labelled with its data basis. **OBSERVED** = measured per-state prices. **ESTIMATED** = no per-state source; the national figure scaled by the restorative cost index. **NATIONAL** = no per-state source at all, so no geographic variation is invented.

Procedure	New Hampshire range	New Hampshire avg.	U.S. mean (51 markets)	Basis

What insurance actually pays in New Hampshire

Applied to New Hampshire averages: a typical full coverage plan structure (preventive ~100%, basic ~80%, major ~50%) against a \$1,500 annual maximum. This is an illustration of a common plan design, not a quote, and it is the subtraction carrier pages do not publish.

Procedure	New Hampshire avg.	Tier	Plan pays	You still pay
Composite filling (1 tooth)	\$250	basic	\$200	\$50
Root canal	\$1,220	major	\$610	\$610
Dental crown	\$1,458	major	\$729	\$729
Full set of dentures (both arches)	\$2,130	major	\$1,065	\$1,065
Braces (traditional, full case)	\$6,157	ortho	\$1,500 (cap)	\$4,657
Single dental implant (complete)	\$4,998	excluded	nothing	\$4,998

The annual maximum is consumed by the whole plan year, not reset per procedure. Orthodontics and implants are the two lines where the gap is widest: the first exhausts the cap on its own, the second is usually excluded outright.

This is pricing and market research, **not medical advice** and not an insurance quote. Figures are market averages for budgeting and comparison — your quote depends on your case, provider and plan document.
