DENTAL-DESERT COUNTIES

- A complete single dental implant averages **\$4,305** in New Mexico, \$202 below the \$4,507 national mean of our 51 markets — ranking New Mexico **21 of 51** on the restorative cost index (1 = least expensive).
- **58.9%** of New Mexico dentists accept Medicaid patients (rank 10 of 51), and the state provides **extensive** adult dental coverage.
- **No New Mexico county meets the dental-desert definition**, which requires above-median prices; New Mexico sits below that line. Access pressure is nonetheless broad: **32 of New Mexico's 33 counties** (97%) carry at least one active Dental HPSA designation.
- Nationally, 288 of 3,144 counties qualify as dental deserts, and 2,601 carry at least one active Dental HPSA designation.

Procedure prices: New Mexico vs the national mean

Every row is labelled with its data basis. **OBSERVED** = measured per-state prices. **ESTIMATED** = no per-state source; the national figure scaled by the restorative cost index. **NATIONAL** = no per-state source at all, so no geographic variation is invented.

What insurance actually pays in New Mexico

Applied to New Mexico averages: a typical full coverage plan structure (preventive ~100%, basic ~80%, major ~50%) against a \$1,500 annual maximum. This is an illustration of a common plan design, not a quote, and it is the subtraction carrier pages do not publish.

Procedure	New Mexico avg.	Tier	Plan pays	You still pay
Composite filling (1 tooth)	\$215	basic	\$172	\$43
Root canal	\$1,055	major	\$528	\$527
Dental crown	\$1,149	major	\$575	\$574
Full set of dentures (both arches)	\$1,773	major	\$887	\$886
Braces (traditional, full case)	\$6,783	ortho	\$1,500 (cap)	\$5,283
Single dental implant (complete)	\$4,305	excluded	nothing	\$4,305

The annual maximum is consumed by the whole plan year, not reset per procedure. Orthodontics and implants are the two lines where the gap is widest: the first exhausts the cap on its own, the second is usually excluded outright.

This is pricing and market research, **not medical advice** and not an insurance quote. Figures are market averages for budgeting and comparison — your quote depends on your case, provider and plan document.
