West Virginia at a glance

\$3,969 SINGLE IMPLANT, AVG.	5/51 RESTORATIVE COST RANK	60.2% DENTISTS TAKING MEDICAID	0 DENTAL-DESERT COUNTIES
--	--------------------------------------	--	------------------------------------

- A complete single dental implant averages **\$3,969** in West Virginia, \$538 below the \$4,507 national mean of our 51 markets — ranking West Virginia **5 of 51** on the restorative cost index (1 = least expensive).
- **60.2%** of West Virginia dentists accept Medicaid patients (rank 8 of 51), and the state provides **extensive** adult dental coverage.
- **No West Virginia county meets the dental-desert definition**, which requires above-median prices; West Virginia sits below that line. Access pressure is nonetheless broad: **54 of West Virginia's 55 counties** (98%) carry at least one active Dental HPSA designation.
- Nationally, 288 of 3,144 counties qualify as dental deserts, and 2,601 carry at least one active Dental HPSA designation.

Procedure prices: West Virginia vs the national mean

Every row is labelled with its data basis. **OBSERVED** = measured per-state prices. **ESTIMATED** = no per-state source; the national figure scaled by the restorative cost index. **NATIONAL** = no per-state source at all, so no geographic variation is invented.

What insurance actually pays in West Virginia

Applied to West Virginia averages: a typical full coverage plan structure (preventive ~100%, basic ~80%, major ~50%) against a \$1,500 annual maximum. This is an illustration of a common plan design, not a quote, and it is the subtraction carrier pages do not publish.

Procedure	West Virginia avg.	Tier	Plan pays	You still pay
Composite filling (1 tooth)	\$200	basic	\$160	\$40
Root canal	\$970	major	\$485	\$485
Dental crown	\$1,159	major	\$580	\$579
Full set of dentures (both arches)	\$1,782	major	\$891	\$891
Braces (traditional, full case)	\$6,069	ortho	\$1,500 (cap)	\$4,569
Single dental implant (complete)	\$3,969	excluded	nothing	\$3,969

The annual maximum is consumed by the whole plan year, not reset per procedure. Orthodontics and implants are the two lines where the gap is widest: the first exhausts the cap on its own, the second is usually excluded outright.

This is pricing and market research, **not medical advice** and not an insurance quote. Figures are market averages for budgeting and comparison — your quote depends on your case, provider and plan document.
